The final scientific report serves as a basis for evaluating the achievements of BSJRP projects. **Part 1 and 2 will be published** in our reports and on our website. **Part 3 and 4 will only be used internally** by the program management in order to assess the project and to improve the performance of the whole program. **Please submit the report electronically and in Word format only.**

**Part 1 - General Information**

| Project Title | [insert project title] |
| Project N° | [insert project N°] |
| Reporting period | [insert reporting period - see Grant Agreement, Addendum 2] |
| Swiss Principal Investigator(s) | [insert name and address of Swiss PI(s)] |
| Project Start | [insert project start date] |
| Project Duration | [insert project duration] |
| Brazilian Principal Investigator(s) | [insert name and address of Brazilian PI(s)] |

**Part 2 - Scientific Information**

**A) Synthesis of the Project**

(half-page to one-page)

_Briefly describe the rationale for the project, the objectives, the research problem(s) addressed, the methodological approach and the most important findings. Please strive for clear and simple language that is easily understandable to a broad audience._

**B) Results**

_Please describe the main results and research findings obtained during the overall reporting period._

**C) List of Publications**

_Please list ALL publications produced under this BSJRP project._

_Publications in reviewed journals_

_Poster presentations_
Part 3 - Technical Information

D) Personnel Employed on the Project

Please list all persons employed on this project (incl. Master students):

Family name, first name:
Academic degree:
Birth date:
Employment starting date:
Employment end date (if within the reporting period):

E) Scientific Exchanges/Visits Organized in Connection with this Project

(made since the last report)

<table>
<thead>
<tr>
<th>Visiting Scientists</th>
<th>Host(s)</th>
<th>Purpose</th>
<th>Start Date &amp; Duration of Visit</th>

F) Further Steps

Please provide information on future collaboration opportunities and follow-up activities. Please also indicate where you expect to find funding for your future collaborations.

G) Institutional Impacts

Please indicate if the project has led to collaboration activities between the two institutions beyond the project participants. Please mention in particular if any agreements have been concluded or if exchanges beyond your group or any teaching activities have been initiated.

H) Patents & Private Partners

Do you expect any patents coming out of this project?
Do the results of this project have commercial potential? Do you think there could be industrial partner involved in this project in the next phase?
Part 4 - Partnership Aspects & Assessment of the Program

This part serves mainly as a basis for the Swiss programme management to assess the performance of the program and to improve it in the future. You are invited to give us your personal opinion. It will not be published.

I) Partnership

Is this the first time you have collaborated with this Indian partner? Please indicate if the collaboration has worked well. Were there any difficulties in dealing with the Indian partner(s)? Please elaborate if the answer is yes.

J) Brazilian Contribution

Please describe the Indian contribution to the project as a whole. This contribution should include financial and manpower contribution, infrastructure, etc.

K) Benefit for you /your institution

Please describe how you or your institution has benefited from this collaboration.

L) Overall Assessment of your project

Briefly describe your own opinion on the joint project as a whole (strengths/weaknesses/conclusions).

M) Your Assessment of the BSJRP

Do you have any feedback on the programme management and the programme in general? What worked well? Where did you encounter difficulties? What could be improved? Do you have any suggestion for the next phase of the BSJRP?
